India Rubber Goods.

SPRING TRADE, 54.

D. HODGMAN, 27 *Maiden Lane*, (*Nassau Street*) invites the attention of his former customers and merchants generally to his large and well assorted stock of India RUBBER GOODS, which he has received from his Works and is daily receiving from his Factory:

COATS, LIFE PRESERVERS,
CAPES, WHIPS,
GLOVES, CARRIAGE CLOTHING,
PANTS, PIANO CORDS,
OVERALLS, MACHINE BELTS,
LEGGINGS, ENGINE PACKING,
CAPS, CLOTHING,
BEE-FING JACKETS, HOSE.

And every description of Rubber Goods manufactured.

The reputation of my Goods for the quality is so well established as to render commendation entirely superfluous. It is the great pleasure to inform Wholesale Purchasers

Rubber Clothing

That I am enabled to offer them inducements to purchase superior to what I have been able to offer before. I feel confident I can sell them as I firmly believe superior to any that have been offered, or can be offered elsewhere.

Orders respectfully solicited and promptly filled with promptness and despatch by

D. HODGMAN,

House-keepers, look at this!

Admirable Invention.

PATENT SELF HEATING

SMOOTHING IRON.

MANY important improvements have been made since the beginning of the present century, relieving and benefiting the labor of men by machinery and other modern implements; but females have been more neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them in a very great degree, from the expensive and fatiguing labor of *heating*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and decorative neatness in one of any character, equal for a whole days consumption of fuel for a single hour! Iron wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Heaters and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

For sale, wholesale and retail by the inventor, who is the only Agent for Penobscot County.

ALBERT NOYES.

Dr. Langley's Root and Herb BITTERS.

A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies, here to do their cause.

SPRING HAS COME

Read, consider, reflect and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with impure humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Langour, and General Debility. Now then, if you want to remove all these together with humors in the Blood and skin, take Dr Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint, 37½ cents for a quart bottle.

Now Nature, herself a sure remedy brings
Which cleanses the current of life at its springs,
From fearful Disease that heart Cheering, Dr Langley's Root and Herb Bitters instill by are
There's scarcely a dangerous disease one can name
In which the Root and Herb Bitters have not achieved fame,
And so sure is their action they cannot do harm,
While they strengthen the system and act like a charm.
Are you Temperance like, then be this maxim engraved
No drink alcoholic by it is relieved.
Nor need the fond mother feel an anxious alarm,
To the tenderest infant it cannot do harm.
Is your Liver disordered? in Jaundice your fear
Then Langley will heal both the sensitive ear
Do you suffer from *Dyspepsia*—Will give you relief,
For *Piles* it is of all cures acknowledged the chief;
The motto of "Buy one and Pill do you good?"
The test of experience has easily proved—
And many are to its truth will respond,
That the *Root and Herb Bitters is every one's friend*.
Is your Appetite gone, then the *Root Bitters* take
And you'll heartily eat, has your chin or your steak,
The Blood it will purify—redden our cheek,
And strengthen your frame should it never grow weak
The Ladies declare no such Remedy's known,
And the rule is immense in the *Fair Sex alone*
No wonder, the Bitters make Language to fly;
Bring new blooms to the lip, new fire to the eye

Sold in Bangor, wholesale and retail, by Ingraham & Fuller Guild & Harlow, and by all Druggists and dealers in Medicine in Bangor, Orono, Oldtown, Stillwater, Hampden, Frankfort, and Bucksport, at 25 cents a pint and 37½ cents for a quart bottle.

Wholesale Depot 99 Union-street, Boston. Agents wanted in every town to sell this good medicine.

Choice Fruit Trees.

FOR SALE at my *NURSERY* on Centre Street, a choice lot of FRUIT TREES, most of the stock consisting of *Apple Trees*, grown in this climate, and of best varieties of Apples which have proved adapted to this climate.

Also, a quantity of HORSE CHESNUT and WEEPING WILLOW Trees.

As the Centre Street Nursery must be cleared the present spring, for the purpose of appropriating the land to other uses, a fine opportunity is offered, particularly to those who want a quantity of small trees, as well as standards, and in order to clear the land the Trees will be sold in quantities at low prices, if early application be made.

Those wishing for single trees can be accommodated with almost any variety, from this or the Nurseries of N Harlow Esq, in the immediate vicinity.

MANN'S Unfailing BLACK INK, sold in any quantity, by

WM MANN

Dog and Courier.

The Dog that saved the Elephant.

The following amusing extract from an account of Chang and Eng, the Siamese twins, published in 1853 will be read with pleasure by every lover of dogs.—

One evening as we with our families were gathered around the blazing hearth stones, they were startled by a deep, long, melancholy howl, evidently proceeding from a dog. The howling continued—and it is in vain to say it was a most unpleasant and especially to hear it night—they went out to find themselves of the dismal chorus. Here a pitiful sight presented itself which could not but awaken their pity. Before him stood a raw boned gaunt creature, literally reduced to a skeleton by hunger, who on seeing them ran and crouched at their feet with such an agonizing imploring look of mingled confidence and dread, that they could not hold it in their hearts to turn him away. He was therefore admitted to a place by the fire, and the little people, soon supplied him with a sufficiency of food, even to satisfy his almost insatiate appetite. Where he came from or what drew him to their door, they could never tell. Some weeks passed on, and Bose for that was the name given him, grew fat and saucy—we are sorry to state it—very saucy. With muscle and fat came assumption of dignity and importance. Perhaps this was not without reason, for Bose was a very imposing dog to look upon, and he seemed to be fully aware of it.

He was a valuable dog too. To be sure his color, mostly a dingy yellow, is not particularly popular among dog fanciers, but then he was large and strong. He was always healthy and enjoyed his regular meals, and what was more than all the rest, he was an animal of extraordinary sagacity. In truth he was a marvel of intelligence. Some dogs can't take a hint. Bose could on a nudge. If he was lying in seasons and you wanted to intimate to him that his presence was disagreeable, all you had to do was to open the door, and pick up the poke or broomstick, and he would understand you as well as if you talked half an hour about it. He was a famous watch dog—no one could come within half a mile of the house but what he would raise his voice against it—no one could pass without receiving a due amount of attention. He soon acquired a great influence, probably from his respectability, among all the dogs in the country, and shortly a regular police system was organized among these quadrupeds in consequence of which every traveler in that vicinity was obliged to run the gauntlet of some two hundred curs, of all ages, colors and conditions. Individually became so annoying, that his masters used every effort to induce him to relax somewhat of his vigilance, but without success. Even a hickory persuader proved utterly awaking.

What the Tuptus had failed to accomplish in this case, was finally brought to pass by a singular accident. Before dawn of one morning, Bose was aroused by the trampling of many horses feet. He at once sounded the alarm; but the noise continued, and not was added the rumbling of wheels, presently, by the dim starlight was discovered a long train of heavy wagons, drawn by two, four, and six horses each, coming over the road at the rate of about five miles an hour. Bose grew frantic. He yelped, he howled in agony and indignation,—still the onslaught kept on the even tenor of its way. It was a travelling menagerie, on its route to the county seat where it was to be exhibited the next day. But Bose was not aware of this. He had never seen such a sight before, and viewed it as a personal affront to himself. When, however, these had all passed and there presented itself to his excited vision a huge monster, shambling along at an uncouth gait, with a proboscis swinging loosely from side to side, and a pair of iron like ears flapping as he walked, the spectacle proved too much for his habitual caution, and he flew at the enormous animal with the fury of a tiger. The elephant roll of his diminutive eyes, gave his trunk a wing and a sail and away scared poor Bose, higher in the air than we would dare take sailing over a lofty barn in his course and finally alighting upon his back in an onion-bed, full sixty feet from whence he first started. There he lay for a few moments, when he picked himself up and retreated to his kennel, a wiser and a sadder dog. Early the next morning he started off on a visiting excursion, and was seen at every house for miles around in the course of the day, and for the week subsequent he held a continuous levee, which was attended by all the prominent members of the canine aristocracy residing in the country. It was observed that after a protracted consultation in the kennel he invariably took his colors around to examine the scene of his unexpected fall and the dogs always left with looks and puzzled expressions of countenance in which fear was generally strangely mixed with incredulity. The result of all this was a mistake. Bose thereafter was a model of humility and good manners and no array of burglars might at any time have laid siege to the house without his being an intruder as to make the slightest objection. From that hour he enjoyed the highest consideration among all his canine dogs, and his example had a striking effect in reforming their conduct toward strangers. The company of rising pups especially, looke upon him with a degree of admiration approaching to awe, evidently believing him to be possessed of a knowledge of the world, which is not to be gleaned by few of his race. He bore a long and meekly, and lived to

BANGOR DAILY WHIG AND COURIER.

Whig and Cou[illegible]

Wheeler & Lynde, Proprietors.

THURSDAY, MAY 25 1854.

☞SEE FIRST PAGE☜

The Whigs of New York are talking of Horace Greely as a candidate for Governor. Mr. Greely has a wide-spread popularity as an editor and as a man. The reforms and improvements which he advocates, are generally for the interests of humanity, as we think—and he enforces them with great earnestness and ability. He has been accused, not only of an entire want of conservatism, but of being an ultra radical, even to the extent of favoring a dissolution of the Union. Properly understood, however, nothing that he has advocated can be justly stigmatized as pointing to this end. We believe he has the welfare of this Union as nearly at heart as any other man. Be it either him or us we should rejoice to see him Governor of the Empire State—and have no doubt of his election if he should consent to be nominated.

A correspondent in Henry county, Ohio, requests us to mention the mysterious disappearance from that region of a young man calling himself William Y. Henry—a man of good appearance and much polished—apparently a teamster by occupation. He has been heard to speak of lumbering on the Penobscot, and of fitting out at Bangor. Said his father was a minister, that his mother had died of acute rheumatism and that two of his brothers had lately gone to Australia. He came hither from Maine last July, with one John Choate. He went to Toledo on business, and was last seen there. Fears are entertained that he has met with foul play.

Our correspondent (Mr. Thomas Randall of Napoleon, Henry county, Ohio) assures us that his friends in this part of the country know anything about the young man, they will confer a great favor by communicating the information.

Progress of Shipbuilding.—Mr. A. S. Austin, has on the stocks at Newcastle, a splendid three-decker of 1500 tons, already sold to parties in New York. The Lincoln Democrat says that timber is rapidly arriving from the south, and that all the yards in that vicinity will soon be in full operation. The amount of tonnage going up, on the Kennebec, is unprecedented; and yet there is a market and employment for all, and more than all that can be built, without taking into view the prospective demand to be caused by the war in Europe.—Why do not our own capitalists embark more extensively into this business? Only two firms are doing a pretty constant and profitable business here in building ships of the larger class—but there is room and encouragement for others.

In the Police Court on Wednesday, John Cussy, Patrick Lines, Charles Dalton, Joseph Burke, Timothy Sullivan, were ordered to recognize in the sum of $1000 each, for their appearance for examination on charge of an assault upon the officers, on Sunday last. They were all committed, in default of bail.

Michael Owen, was arrested on the same charge, last evening.

The Volunteer Militia. The "Grattan Guards," is the name of a new military company, to be organized in this city. The election of officers takes place next Monday.

A company is about to be organized at Rockland, as we earn from the Gazette. The new Militia bill provides for the arming and equipment of the volunteer companies; but this does not, of course, include their uniforms.

The Maine Democrat, which is multihebdomadal Mr. McDonald's district, and supports the principles of the Nebraska bill, appears this week with a supplement containing a Navy Advertisement which occupies fourteen columns. No other paper has that news as yet.

Godey's Lady Book for June, contains 100 pages of excellent matter, 3 full page plates, one line engraving, 65 other engravings and a color'd fashion plate. This magazine is so justly popular with the ladies as to be almost without a rival in fact—and it is justly popular, for aside from any light reading often interesting character, it contains many articles upon useful subjects, and a great variety of matter pertaining to the more elegant pursuits and tastes of our American women.

Louis A. Godey, Publisher, Philadelphia.

A correspondent of the Baltimore Sun states that letters from high authority in London are received, to the purport that the British Government most positively denies the existence of any treaty with France and Spain, for the protection of Spanish interests in Cuba against the United States.

☞ In speaking of the appearance of people Outer P. says, that to him there is little choice between the walking air-tights and the walking broomsticks.

There will be a session of the Executive Council at the Council Chamber, in Augusta, commencing on the 18th June.

"Your old Kentucky home" you pack and you, said Mrs. Partington, as she threw her night-cap out of the window, almost into the twilight, to catch the notes of the song an individual was singing in a dismal tone near her dwelling. "I wish to my heart you was there, where your friends could take care of you and care for you. I'm a terrible thing to be in distress, away off among strangers, particularly where you aint acquainted with any of them; but I don't think it looks well for a man to wake up a whole neighborhood at midnight with his cantrips." She saw him disappear, a moment afterwards, in a shop with a red curtain, opposite, and with the remark that she guessed the poor creatur had gone in to get something to invigorate his elegant teeth, she shut down the window, and in five minutes by the wooden mantel clock that ticked steeply in her chamber, she had forgotten all about the old Kentucky home. [Boston Post.

Each in the day, Mrs. Lord not returning, search was made, when the bodies of the mother and child (the latter tied in the bright of its daughter) were found at the bottom of the pond. Mrs Lord has lately exhibited signs of insanity.

Advices from San Salvador, Central America, state that a severe earthquake occurred there on the 26th of April. Many buildings and 600 families were buried in the wreck.

What Connecticut Says.—The legislature of Connecticut recently adopted resolutions protesting against the repeal of the Missouri compromise and the admission of slave territory. The vote in the Senate stood, yeas 16, nays 1; in the House, yeas 148, nays 57. The following are among the resolutions:

Resolved, That in the name, and in behalf of the people of this State, we protest against the proposed repeal of the prohibition of slavery in the act, preparatory to the admission of Missouri, as a violation of the national faith, as destructive of mutual confidence between the States of this Union, as expanding the Union itself to imminent peril, and as inconsistent with the fundamental principles of natural justice.

Resolved, That we declare our fixed purpose never to consent to the legal or actual admission of slavery into the territory from which it was excluded by the act of 1820, and the admission of slaveholding States ought to awaken the people of Connecticut to the aggressive character of slavery as a political power, and to its existence whenever it comes constitutionally within the reach of federal legislation.

The "National," "Liberal" democracy of this State can claim no affinity with democrats who vote such sentiments as the above—and a portion of the Connecticut democratic member did vote them.

The City democracy of Maine go the entire Douglas and Pierce platform on Nebraska the Missouri compromise and the general infamous fanaticism of slavery. They have recently avowed as much in a meeting for organization in the new county of Sagadahoc. The Merrimac democrats are a better class of men in that respect.

As showing how financial men regard the position of the United States, relative to the European stockholders, we copy the following extract from the London correspondence of the New York Commercial Advertiser. The writer is understood to be the image editor of the London Times.

"The accounts brought by each steamer from New York, of increasing pressure in the money market, and declining prices for all descriptions of American securities, create constant surprise on this side. Looking at the large arrivals of gold lately reported from California, the accounts as of the productiveness of the mines this season, the long cessation of specie shipments from New York to England, the unprejudiced demand for breadstuffs on this side, the prospect of a large trade from America in all those articles which can be used as substitutes for Russian produce, the certainty of an increased employment for all nautical ships, and the total conviction that by no conceivable circumstances are the United States likely to be compromised in the contest, the fact of such share of the circulating almost more monetary alarm in America than in London is most singular. The only solution—that far offered for it, is the extent to which American securities are held in Europe, and the probability of their being returned for realization. But times of trouble here would seem to be those in which your stocks would be most sought for, and lately there has certainly been no evidence of any great quantity being sent back."

The policy of the United States is certainly very manifest, and well understood abroad.

We have Boston papers, by Bryant and Manning's Express, per steamer Boston. They give Congressional and other news, up to Tuesday evening.

In the Senate, Tuesday, Mr Toucey of Ct. replied to remarks made on Monday by his colleague, Mr. Smith, in the occasion of presenting the Connecticut Anti-Nebraska resolutions.

Mr. Toucey said his colleague had erred in saying the resolutions had received the support of the democratic members of the legislature. The sentiments embraced in the resolutions would never receive the support of the democracy or the people of Connecticut.

When he had closed, the Nebraska bill was received from the House.

In the House Mr. Morrice of N. Y. who was absent when the vote was taken on the Nebraska bill, asked leave to have his name recorded in the negative.

The consideration of Nebraska bill was given, but not yet finished. We shall publish a full list, analyzed, when received. McDonald, Hibbard and Ingersoll are the only New England members voting for the bill.]

American Diplomacy at Madrid.

From the Tribune's Correspondence.

Paris, Wednesday, May 3, 1854.

Articles of a ridiculously unfine character have lately appeared in The London Times, written by its Madrid correspondent, in explanation of the proceedings of Mr. Soule, on the Black Warrior affair. The facts of the case are as follows, and are received from a source which places them in authenticity beyond question.

On the arrival of the special messenger, Mr. Nicolson, with instructions, Mr. Soule prepared and sent to the Spanish Minister of Foreign Affairs, M. Calderon de la Barca, a very calm, clear and firm demand, containing two propositions: first, indemnity; secondly, guarantees for the future, by the appointment of a diplomatic agent at Havana with powers to meet these cases. The was delivered to M. Calderon, with a request for a *prompt* response, but not specifying the time which was allowed to make the response. At the end of twenty-four hours, Mr. Soule, receiving no reply, another note was sent, in substance the same as the first, and added that if at the end of twenty-four hours, a response was not received, he should take it for granted that the Spanish Government approved the action of the Cuban authorities, and act accordingly. This was delivered by the Secretary, Mr. Perry, to M. Calderon, in person. When M. Calderon had finished reading the note, Mr. Perry coolly drew out his watch and said:

"Your Excellency will please observe that it is now 12 o'clock; at twelve o'clock to-morrow, precisely, I shall be here for a reply."

"Holy Virgin! young man, what do you mean?" exclaimed the Minister: "only week and a Sunday intervening: it is impossible!" (It was holy week in Madrid—a season devoted to meditation and care.)

Mr. Perry left. Before the termination of the twenty-four hours Mr. Soule received a reply from M. Calderon, stating that it was out of the power of the Government to act in the matter, inasmuch as they had received no official intelligence from Cuba to guide them in their negotiations, and adding that the manner of Mr. Soule clearly indicated that the United States was much more anxious for a difficulty than for a settlement.

To this Mr. Soule responded, again reiterating his first demands, and adding—rather impertinently, it must be admitted—that he was certified that all information had been received from Cuba, and that in reference to the designs of the United States, they sought only a prompt settlement of the difficulty in order to preserve the peaceful relations which existed between the two countries; that the continued insults with the Cuban authorities had offered the United States had an exasperated the people, but a prompt settlement would be found the surest guarantee of continued peaceful relations.

At this stage of the proceedings, the Queen sent for Mr. Soule, who, it may as well be here be stated, is in favor at the palace, while on the contrary, Calderon is hated by her. Her Majesty, who indulges in a very strong diet, into which brandy and cigars enter largely, and who is not very choice in her language, wished to know of Mr. Soule what the row meant between him and M. Calderon. On Mr. S. stating the case, she stamped her foot violently on the floor, and said that "Calderon was a d—d fool; she wished that Soule would manage the affair as to get her rid of him, and she advised him *to press him hard*." It is generally thought in diplomatic circles in Paris, that between Mr. Soule and the Queen, Calderon will be brought to a conclusion—of some kind.

Varieties.

More Fermentation.—Rumors are again rife that a filibustering expedition against Cuba is in preparation. Rumors are afloat in New Orleans, of men being drilled in the interior, and of large subscriptions of money being made by influential and wealthy Louisiana planters, some of whom are well known as public and influential men at Washington.

A Terrific Thunder-storm prevailed at Lewiston Falls last Saturday evening. Commencing at 8 o'clock, it blazed incessantly for an hour and a half and struck at several points in the village. Two tall pines on the summit of "David's Mount," were shattered by the thunderbolts.

Kan. & Port. R. R.—Mr. William F. Moses, late travelling agent of Carpenter & Co's Express, and a very energetic man, has been appointed Master of Transportation upon the above named road.

Progress of John Chinaman.—The Louisville Courier announces the arrival of a party of Celestials, a direct importation from China, who are on their way to Kelly's Iron Mills. It is stated that they have sold their time for a term of years, to work at the aforesaid establishment.

The Wheeling Suspension Bridge, lately destroyed, is to be immediately rebuilt.

The Common Pleas Court of New York has just made a decision adverse to the legality of Perham's Gift Lottery schemes.

A Bad Fellow—A young lady at Petersburg, Va. lectures before the Court that one Williams has "blackguarded her, villified her reputation, and ruined her character and the front door of her house."

Suspicious Puff.—A contemporary, in noticing the advent of the "Know Nothing" newspaper, says "it is a well printed sheet, and from a hasty glance at its contents we should judge that it fully sustains its title."

Defence of Polygamy. A lady in Utah, a wife of one of the Mormon leaders, writes to her sister a long letter, published in the newspapers, defending polygamy by the example of Abraham, Isaac, and Jacob, and the holy men mentioned in the bible. The argument is as ingenious as many otherwise drawn from the same source, and would be conclusive enough to satisfy the conscience of any Turk, whose harem contained no less than two hundred wives.—The letter is a curiosity, as exhibiting the social relations of the polygamist. The lady says her husband has seven other wives, which is a moderate number for a leader of the faith, as Brigham, the high priest of Mormonism, we believe has thirty-six. The children of these eight wives number twenty-five. The husband she says, is a "good and virtuous husband," and all these mothers and children are endeared to her by kindred ties—by mutual affection—by acquaintance and association; and the mothers in particular by mutual and long continued exercise of toil, patience, long suffering, and sisterly kindness. The husband, of whose affection she is entitled to just one-eighth, is a practical teacher of morals and religion; a promoter of general education; and at present occupies an honorable seat in the Legislative Council of the territory. She concludes her remarkable letter with the hope that enlightened legislation in every State will so be modified, and the customs and consciences of individuals will be so altered, that any Utah gentleman, with more than the christian number of wives, may be able to travel in any part of the United States with his harem and children, and enjoy as much consideration and honor as he does at home, or in the same manner as the patriarch Jacob would have been respected, had he, with his wives and children paid a visit to his kindred.

[Philadelphia Ledger.

If the Utah ladies are satisfied with the institution of polygamy, let them enjoy it at home, as long as the laws will allow; but when they travel out of the domains of Mormonism, they will very probably encounter a public sentiment not at all agreeable to them. And this sentiment is founded upon the wise commands of Christ, and upon the wholesome laws of our physical and moral nature.—Old Jacob's practice to the contrary notwithstanding. We hope the people of New England, at least, will not soon conquer their prejudices in favor of the single wife system.

Portrait of a Whig. The National Era, the leading free soil organ in this country, does not like Senator Seward very well, because she is a "whig, first, last, always"—i. e., just such a whig as we like. The Era concedes that he is "an able statesman, a sagacious politician," and one who on many occasions "has shown his sympathy with the colored race;" and in view of the defeat of 1852 it adds, that "to Mr. Seward, more than any other man the whig party owes its existence. Speaking of Mr. Seward, the Era then draws the following exquisite portrait of a true national whig, which, though not meant for a panegyric, may be accepted as such:

"He believes that the two old parties, that now generally divide the people, must continue to exist; that it is vain for a politician to expect to accomplish much except through one or the other of them; that accessions from them on special issues, may produce some effect, but not so much as if they should remain, and labor to bring their influence to bear upon their original parties; that the question, who is the candidate of the party, or what its platform, as announced by resolves of quadrennial conventions is of comparatively little moment, the real question being, what are the true principles and tendencies of a party as illustrated by its practical action; that the whig organization, tried by this rule, is the party of Freedom and Progress, inasmuch as, no matter what Presidential candidates or platforms have been invoked upon it, its action on the whole has been more progressive of the great interests of trade, manufactures, agriculture, peace, freedom, and substantial power, than that of the rival organization; that to the whig party, therefore, has allegiance is justly due, and its great duty is, to maintain and strengthen its organization; that the fact of an objectionable candidate, or an unsound platform, put forth by a national convention, in which the evil elements of the party were in the ascendant, furnishes no reason why honorable, well-principled whig should abandon his party, because, in the long run, the inherent tendencies of the organization for good must overcome or counteract the temporary mischief."

New York, May 14.

The Washington correspondent of the Tribune states that Lord Elgin's mission to this country relates mainly to the Spanish question, and that he is empowered to offer the services of his government as umpire in the difficulties growing out of the seizure of the Black Warrior.

The latest news, by mail and telegraph, will be found on third page.

Mutual Confidence. Before an election out west, a few years since, Hans, who is a loco, went to see his father-in-law, who is a strong whig.

"How to-do, Hans," said the old man.

"How to to, fader?"

"How you going to fote, dis fall, Hans?"

"Oh, mit de lokies (locos) of course, fader."

"You! you going to fote dat lokies ticket!"

"Yes fader, you know I'm a lokies, and I must fote de lokies ticket."

"Now, Hans, I'll tell you vot I'll do mit you. You no go do de bolls, and no vote for de lokies, and I no go do de bolls, and no vote for de whigs, and den—you see, can't you—eh, Hans?"

"Very vel, fader."

"Will you do it, Hans?"

"Yis, fader."

"Now don't forget, Hans."

"No, fader."

After election, Hans went again to see his father-in-law.

"How to to, Hans?"

"How to to, fader?"

"Did you go to de bolls, Hans?"

"Yis, fader."

"Vell and fote?"

"Yis, fader, I fast to do it; dey cot arount me, and wouldn't let me off, fader."

"Oh, you fasten! you no to as you say, Hans."

Hans was disconcerted, and in the confusion rather meekly asked—

"Did you go to de bolls, fader?"

"To be sure I did," replied the old Dutchman, in tones of earnest excitement, "don't you suppose I know better dan to trust a tam lokus!"

Baltimore, May 23.

Mr. Thomas Ritchie, Editor of the Richmond Enquirer, died on Sunday evening.

NOTICE.

The Bangor Horticultural Society will hold their Annual Meeting, for the choice of officers, at the office of Albert Emerson, Esq, on SATURDAY next at 8 o'clock P. M.

may25 J. S. AYER, Sec'y.

To the Penobscot Medical Association.

The Penobscot County Medical Association will meet, according to adjournment, at the City Hall, in Bangor, on WEDNESDAY, May 31st, at 2 P. M.

m24 C. W. STON, Cor. Secretary.

CARD.

The undersigned hereby returns thanks to his friends and the public for the patronage heretofore bestowed upon him, and having disposed of his stock of Books, Stationery and Paper Hangings to Messrs. Charles Hight & Co. would recommend them to his former patrons and the public generally, believing that the location where she has occupied for more than twenty-one years past will be made more attractive to purchasers by his successors.

may 24. GEO. R. SMITH.

NOTICE.

The undersigned have this day purchased of George R. Smith his stock of Books and Stationery, at Store No. 10 West Market Square, where they intend to continue the Book Trade in all its various departments and hope by keeping up with the times, in furnishing the new, the useful, and the beautiful, and by being always courteous and happy to wait upon customers, to merit and receive a generous share of public patronage.

To the Medical Profession.

The second Annual Meeting of the Maine Medical Association, will be held in Portland on the first Wednesday of June next. T. C. STOCKBRIDGE, Cor. Sec.

May 15 1m

Holloway's Pills.—Among all the idle medicaments of the day, the names of which fill the common ear to nausea, we would put much de Holloway's Pills celebrated in the here and in Europe, for their curative properties. A second determination was taught in that their reputation is not ephemeral, but a solid solid and increased upon it as an old useful Saint or an old the intelligent, the refined and the discerning. They are so be in use with in every section of the civilized globe, and in every spot their virtues are subjected to with grateful enthusiasm, that well endorses their capacity and virtues. They are not merely designed for a special complaint, but are depurative, and aim by removing from the system all sorts of diseases, thus operating in an universal manner and never in most all disorders to which human nature is subject.

[New York True National Democrat.

CARD.

WM. ARNOLD returns his sincere thanks to his numerous customers for their liberal and long continued patronage, and having sold his stock and retired Mr Caleb Billings (April 6th, 1854) would respectfully invite the attention of the trade and to him in the immediate settlement of their accounts. He may be found at his Store at Columbia—open for a short time. Mr. Sargent is also authorized to settle bills.

Bangor April 26, 1854 dw

DIED:

In Holden, May 23d, Mrs. Eliza Ann Clark, aged 43 years and 8 months, wife of Harvey D Clark.

In Farmington, 17th inst, Francis E Smith, only son of Francis Smith, aged 15 years.

In New Sharon, 5th inst, Mrs Judith Frank, wife of the late John Frank, aged 83.

Bangor Daily WHIG & COURIER Marine Journal.

DR. ORDWAY'S

HUMOR DISCOVERY,

—AND—

BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficacy, to put it out in the reach of all.

He has now added to it an *Herb discovered in California*, by Dr. Kelpet, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the man in a few days.

The natives, when bitten by a rattlesnake, or bitten by any other poisonous animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.

Discovery of the California herb.

About the first of March, in the year 1848, Dr. Kelley sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practicing in the vicinity of Auburn, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and mad animals.

While doctoring a minor for that terrible disease the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved) who had to a quilled with some medicine) came with an Herb which he called "*Tobocachemo*," (which means, will cure,) he told him to give the "*numbed*" (man). The effect he found to be one wonderful, curing the man in a few days.

He afterwards used the Herb in his practice, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism Sores, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints; and a great *alterative and Purifier of the Blood*.

The above is in substance the discovery and medicinal properties of the useful Herb, as related by Dr. Kelley, on his return.

Upon trial, its virtues have been found to exceed its reputation as the most valuable Medicinal Herb yet discovered.

Hear a Mother's Voice from the Grave to State.

Dr. Ordway: Dear Sir—Since we have kept your medicines for sale, we have used several bottles of your Blood Purifier in our family, and from the effects produced we believe it to be an invaluable medicine.

Twice to infuse my parter lady will at her home in our little boy, (who is now six years of age,) she has been a feeble child from his infancy, so accustomed to taking medicine, and yet *Scrofula* Humor, *Indigestion*, and consequently, at times, great *Exertion and Nervous* of the system. One year ago last summer and fall he was nearly all eaten with *Canker in his mouth and throat*, so much so that it was a painful sight to witness the intense agony of the little sufferer in taking food to sustain the poor frame.

I did not know what course to pursue with him, but finally concluded to make a trial of your *Blood Purifier*, and commenced giving it to him about the first of December. I am happy to say that by the time the bottle had *been nearly used* *free from canker*, and his little system supported every wear, and after taking three bottles in succession, he (for the first time in his life) appeared to be in perfect health, and continued so until the year said of with the influenza in August, which left him with a severe cough, but we succeeded in relieving that in a few weeks. In July he took cold and his cough came on again before than ever, he was troubled with indigestion and loss of appetite, and could not was no sustained that any food he were about he wasting away, and declining.

As soon as his cough was to subsed, we commenced giving him the Purifier again to restore his health, and in a short time he began to gain fast. And by the blessing of Almighty God, he is now and has been for two months past, the picture of health.

I can confidently recommend the Blood Purifier to all who are afflicted with scurvy or any form.

We have also made use of the Purifier as a general after being restored low by fever, and believe it to be the very best of medicines in all such cases, for purifying the secretions, and removing all morbid matter from the system, and restoring health and vigor.

(Signed) MRS. D. SANBORN.

Bangor, May 18, 1854 3m&w

LAND OFFICE,

Bangor, May 19, 1854.

SEALED PROPOSALS will be received at this office till the twentieth day of June next for furnishing materials, and constructing the masonry, for the Mattawamkeag Bridge.

Persons proposing to build will state the price demanded per cubic yard.

The contractor will be required to remove the old piers and abutments, and to furnish materials and construct necessary bridges to sustain the bridge in a proper manner, while taking down the old and building the new piers and abutments, and he will also be required to place (in a suitable manner) the bridge upon the new piers and abutments as soon as they shall have been completed.

Separate proposals will also be received for furnishing materials for, and constructing the bank walls, and the abutments for small bridge. The work to be of a good kind of culvert masonry.

More particular information may be obtained by an examination of the plans, &c., in the Land Office. GEORGE C. GETCHELL,

may22 Land Agent.

PENOBSCOT

Thomsonian Medicine Store.

SAMUEL DEALING

WOULD respectfully inform the citizens of Bangor and vicinity that he has taken the above well known store, for many years occupied by the late

Latest News.

The Steamer T. F. Secor, as we learn from the Machias Union, was delayed in her first trip, by running on to Fassadam's ledge, where she lay one tide. The Union also reports that an English bark, of about 500 tons burthen, was wrecked on Thursday last, near Moosepeccy Light. She got lost in the fog. She was from New York, bound for St. John, N. B., with a cargo of flour, corn, beef, pork, and 200 tons of coal. Her cargo is said to be worth $60,000 or $70,000, all spilt in the sea. The vessel is a complete wreck.

Letters from Madrid state that it appears to be impossible for the government to comply with the demands of Mr. Soule, which, if they have not a ready been received, will no doubt be refused in due course.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATER FROM EUROPE!

ARRIVAL OF THE

AMERICA,

AT HALIFAX.

HALIFAX, TELEGRAPH OFFICE, May 24th, 1854.

The steamship America, from Liverpool, arrived at Halifax at 7 o'clock, A. M., Wednesday, May 24th.

Steamship Arctic arrived out at 7 o'clock, P. M., Wednesday the 19th.

PROGRESS OF THE WAR.

Negotiations for an alliance offensive and defensive, between Sweden and the allied powers are said to have progressed so favorably that they are on the point of being concluded. It is also confidently stated in Paris that Spain, Portugal and Piedmont are willing to join the Western alliance, and if necessary to supply contingents. Hanover has declared against letters of marque. The Paris Moniteur announces that Austria is about to do likewise.

The Arab chief, Yussuf, has embarked for Turkey.

Fourteen Russian merchantmen have been captured in the Black Sea.

Admiral Dundas has proposed an exchange of prisoners.

A new French loan of 250,000,000 francs is talked of.

Latest Intelligence.

The London Times correspondent at Landsort, in Sweden, writes on the 4th, that the Amphion, Captain King, was reported ashore in the vicinity of Revel, and it is feared that Captain and crew, have been made prisoners.

Paris, Friday. The Bourse was pretty firm. Funds closed at 65.45, and 92.90. The National Discount Office has lowered its rate of discount 1 per cent.

Ottawa, May 1st. The inhabitants are beginning to return to the town, and places of business are opening again. The bank has removed some distance from the town.

The Bank of England on the 11th, raised its rate of discount to 5½ per cent. The same day the Bank of France reduced the 3 and 4 per cent. Since February, bullion has increased 4,000,000 sterling in the Bank of France, and decreased the same amount in the Bank of England.

BLACK SEA. Full accounts of the bombardment of Odessa are now received. As narrated, the affair was far from decisive being more destructive without any result. The British accounts report the attacking force as consisting of the English steamers Samson, Terrible, Tiger, Retribution, and Furious, the French steamers Mogador, Vauban, Descartes, and Caton, also a detachment of English rocket-boats. The mode of attack was new.—The steamers continued for twelve hours to sail around in a circle of half a mile in diameter, two thousand yards distant from the batteries, and each steamer delivered her fire as she passed, the rocket-boats continuing to throw 24 pound rockets, to set the town and shipping on fire. The steamers also threw red-hot shot.

The Russians fought with extreme bravery, replying to the fire of the ships. Towards night the battery becoming untenable, its fire became slower, though regular and swelling as the shipping in the war being on fire, it was planned. During the action red hot shot from the steamer terrible blew up the Russian magazine on Imperial Mole and silenced the formidable batteries there. A Russian frigate in the harbor took fire and burned to the water's edge. Twelve small ships and two ships of war building were also destroyed by fire. Bombs set the lower part of the city on fire, which burned for two days. Three of the attacking steamers were disabled, and the Vauban, set on fire, but extinguished. The British estimate their loss at less than twenty killed and wounded. The Russians estimate their loss at twelve killed and sixty wounded. The British Admiral, after the action, sent a circular to the fleet, saying that he had inflicted retribution on the Russians for firing on a flag of truce, but the Russian accounts look as much like truth as the French. The Russian account says that on March 27th, the British steamer Furious approached Odessa. Two guns without ball were fired from the batteries, and the steamer was ordered not to approach nearer. The Furious therefore stopped and sent a boat ashore with a flag of truce. The boat was respected and allowed to land at Otkari, and sent back to the Furious with information that the English Consul had left.—The Furious, however again got up steam and approached nearer, as if to make a survey of the harbor. When the batteries fired seven shots, not on the boat with the flag of truce, but on the advancing steamer, which then left. On the 2d of April, the Allied steamers came to Odessa to demand an explanation. General Osten-Sacken expressed in writing his surprise that the allied Admirals should imagine that the Russian shots were fired at the flag of truce.—He stated how the affair arose, and concerning, refused to deliver up the shipping in the harbor, as the admirals demanded. Accordingly, on the 22d, the bombardment took place.

It was reported, that for the respect the Admirals had abandoned any intention of attacking Sebastopol.

Some British steamers had approached the harbor, and thrown in a few bombs but these were trifling.

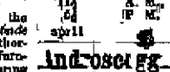
Waterville, April 7, 1854.

KENNEDY'S



The Greatest of Its Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of boils.

Two bottles are warranted to cure the worst tetter in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of ringworm.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running pimples.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to six bottles will cure the very worst case of Scrofula!

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have not witnessed all the wonderful cures of the day as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system. Yet it is now a hard fact—If you have a humor it has to start. There are no affidavits or testimonials, among some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. When the body is sound it works quite easy, but when there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There never is a sad result from it—on the contrary, when the feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant commendations of it that ever can be listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it.

Roxbury Sept. 19, 1853.

This is to certify that H. H. RAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON*.

No. 76 State Street, opposite Kilby St. BOSTON

IMPORTANT INFORMATION TO INVENTORS The subscriber late Agent at the U S Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements to employ on applicant's behalf prepared and conducted by him, THIRTY DOLLARS instead of twenty, and back as others will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection, Caveats Specifications, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting invention, and infringements of patents

Inventors can not only have obtain their specifications for the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as personal trouble in obtaining their patents. Copies or claims of any patent furnished by remitting one dollar, all assignments recorded at Washington

H. K. EDDY, *Solicitor of Patents*

"During the time I occupied the Office of Commissioner of Patents, E H. Eddy, Esq., of Boston, did business at the Patent Office as Solicitor of Patents. There were few, if any persons acting in that capacity, who did so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success. I regard it a duty as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they can not employ a person more competent and trustworthy and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,

Late Commissioner of Patents

"PATENT OFFICE,

To E H Eddy Esq, Boston, Mass

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours, &c, THOMAS EWBANK,

Commissioner of Patents

TESTIMONIALS

The following certificate from Dr John C Warren, of Boston, was given 17 years since, but will suffice to

Boston, Jan 5, 1837

Having had occasion to observe that some persons afflicted with hernia, have suffered much from the want of a skilful surgeon in successfully fitting Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur, I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M D

The undersigned take great pleasure in recommending to the favorable consideration of those who are disabled by suffering with Hernia, Mr James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him some for our twenty years and therefore speak from personal knowledge of his abilities. He enjoys advantages, his long experience in the business, and the large number of our patients who he has fitted in a variety of cases, render him, in our opinion equal, if not superior, to any manufacturer of the article. His father Don Gaston Foster of Middletown, was Master of the Poor house in that town for upwards of twenty four years, during which period Mr Foster studied himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and discouraging character

It will be known to all who have occasion to wear a Truss, that the great excellence consists in its adaptation to the body, at the same time not wounding the patient. Any such Truss can make a Truss but none but a skilful practitioner can apply it so as to attain a cure or even a radical and effectually cure the complaint

Our experience has convinced us that Mr Foster has these qualifications and is a meritorious

The certificates of Dr J C Warren and other eminent surgeons, we think he has shown to us, fully sustain the opinion we have expressed

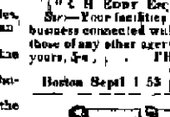
aug8 '53 3mwly



THIS valuable medicine which has received the unanimous of the medical faculty, by whom it is regularly prescribed and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION SCROFULA, COUGHS COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet disease, while the chemical properties of the PHOSPHATE OF LIME are also well known to medicine as benignant vitals healing. In cases where alteration has taken place in the lungs, tissues, &c, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of the diseased part of the human system

This preparation of the pure Cod Liver Oil and Lime robs the latter very nauseating taste, which renders it so repulsive, particularly to invalids—The thorough incorporation of the Phosphate of Lime with the Oil is only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like our own

A long array of certificates might be given here to prove the efficacious character of this medicine but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unqualified excellence

Dr. Pomroy's Ophthalmic Ointment

OR EYE SALVE,

is the Remedy which Cures Sore and Weak Eyes. Read the following

F W Pomroy, *Professor of Music*, Portland, used Dr Pomroy's Eye Salve for a severe affection of the eyes, and by its application they were restored to their former strength and sound state.

Mr H K Hanby, Pearl street, has tried the celebrated Eye Salve on his family, and says that it exceeds all other preparations for affections of the Eye—such as Blue, Weakness of the Eyes, &c, &c.

Mr W H Dyson, Market Square, Portland, was troubled with an affection of the eyes for years, and was entirely cured by Dr Pomroy's Ophthalmic Ointment or Eye Salve

Mr Walter Wells, Principal of the Academy at Augusta, used the painting preparation for a severe inflammation of the Eyes, and was entirely cured by two or three applications

Mr Andrew Munn, Elm street, Portland, was cured of a useless case of inflammation and Ulceration of the Eye Lid by the use of Dr Pomroy's Eye salve, for a few days.

Mrs Tucker, Fore street, Portland, has used Dr Pomroy's Eye Salve for her grand daughter, who is troubled with an affection of the Eye, Weakness, &c, and says it has greatly relieved her

Many more such testimonials might be adduced to show the efficacy of the excellent salve, but we leave it to those who have used it to extol its merits and spread abroad its fame

THE AMERICAN'S FRIEND!

HOLLOWAY'S PILLS.

To the Citizens of the United State—

I most heartily and sincerely thank you for the immense patronage which you have bestowed upon my Pills I take this opportunity of stating that my ancestors were all American Citizens, and that I entertain for all that concerns America, and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY.

38, Cornhill Area and Nassau st, New York.

PURIFICATION OF THE BLOOD,

AND

LIVER AND BILLIOUS COMPLAINTS

The citizens of the United States suffer less from diseases of the Liver and Stomach, or indeed any one from the influence of these destructive maladies, than did years fled. The life has perhaps the most hand mining in the world, up to a certain period, perhaps, disposing to any many one their health and good humor while yet in the heyday of life. Such indeed may be effectual by remedied by continually keeping the blood pure, and the Liver and Stomach in healthy vigorous, which life will flow smoothly, and *peptic* patients in the early morning, while on the advancing years to reign—As it regards preservation of health and strength, and the duration of life, much can be effected, and I say fearlessly that health and life can be prolonged for many years beyond their ordinary limit, if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the direction which accompany each box

A CASE OF WEAKNESS AND DEBILITY, OF 10 YEARS STANDING CURED BY HOLLOWAY'S PILLS

Copy of a Letter from Captain John Jackson, Baker House, New York Island, January 5th 1854

To Professor Holloway, 8, Corner of Ann and Nassau streets New York.

Sir—It is to the most heartfelt pleasure I have to inform you that I have received perfect health and strength by taking your Pills. For the last ten years I suffered from a derangement of the Liver and Stomach and was reduced to such an extremity that I gave up my ship, never expecting to go to sea in it more, as I had tried every Remedy that was recommended to me, but all to no purpose, and then gave myself up to despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for twenty years past, and indeed as well as I ever was in my life. You are quite at liberty to make this known for the benefit of others

I remain, dear Sir, yours truly

(Signed) JOHN JOHNSON.

These celebrated Pills are wonderfully efficacious in the following complaints

Ague	Female Irregularities	Sore Throat, Mouth, and King's Evil,	
Asthma,			
Bilious and Complaints	Fevers of all kinds,	Stone and Gravel

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and beseech for them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with the distort facts, nor overrate their convictions. Judge ye, then, whether this or not the medicine that when you must have relief for the throat or lungs, judge, too, whether every family ought not to have it by them as a safeguard against the severe and prevailing enemy which stalks with fatal frequency upon almost every flock, and carries off the lamb from many a home?

Jackson, C R, Jackson City, C., 22d Nov., 1852

DR J C AYER—Sir The Sarsaparilla is much inquired after. Several of our best Pills are also used, three of them in their own use, and always with the highest effect. The number on hand is selling, some expecting to go to sea in a few days, as I find no other Pills recommended to me, but all to no purpose, and then gave myself up to despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for twenty years past, and indeed as well as I ever was in my life. You are quite at liberty to make this known for the benefit of others

I remain, dear Sir, yours truly

JOHN JOHNSON.

DR. MORSE'S

Invigorating Cordial,

A

Phenomenon in Medicine,

Health Restored & Life Lengthened by

Dr. Morse's Invigorating Elixer, or Cordial.

For centuries Medical science has been ransacking the Vegetable and Mineral kingdoms, in search of something that should restore the lost or wasting energies of the nervous and muscular systems, without the drawback of subsequent prostration, which almost invariably follows the employment of Alcoholic stimulants, tonics and narcotics and therefore sanctioned—The something has been found. It is a vegetable production, brought from the eternal deserts of Arabia the Holy, by the enlightened Professor Morse, well known as a distinguished member of the leading scientific societies of the Old World and equally distinguished as a physician, a chemist and a traveller. The juices of this fruit, concentrated and combined with other vegetable medicinal extracts, are now producing results therefore unknown in this or any other country. And that the properties attributed to Prof MORSE'S INVIGORATING ELIXER OR CORDIAL were deemed fabulous—The public have received such testimony of the surprising and sublime results announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now pouring in from all quarters. Incredulity is overthrown, by a mass of testimony which is perfectly irrefutable.

THE LIVER is remedied in all cases, the deplorable evils arising from a torpid or diseased liver, disappearing as if by magic, and the whole machinery of man, which is so wonderfully wrought, is restored to full vigor every delicate function connected with that mysterious compound agency of water and mucus, necessary to the reproduction of human life. The secretions of feeble, languid frame, or debilitated or vital power, are recommended as the only means of communicating life and energy which is necessary to the proper enjoyment of all the natural appetites, and will be the fruitless pursuit of all others. Its beneficial effects are not confined to children or to any age. The feeble girl, the pining wife, the listless, enervated youth, the over worked man of business, the victim of nervous depression the invalid suffering from general debility, or from the weakness of a single organ, all will find immediate and permanent relief, from the use of the incomparable restorative. To those who have a predisposition to apoplexy it will prove a complete and unfailing safeguard against that terrible malady. There are many persons, who have so often trifled with their own constitutions that they think themselves beyond the reach of medicine. Let such even these despair. The Elixer death disease as it seems, without reference to causes, and will not be by private or other medicine.

REBUILD THE BROKEN CONSTITUTION

The derangements of the system tending to nervous diseases, and the forms of nervous disease itself, are numerous and it would require a volume to numerate them and to set forth their preparation to a section. A few only, however, may be mentioned, viz. nervous rigor, fatigue, hot flashes, incipient paralysis, hysteria palpitation of the heart, spinal affections, nervous debility, tremor, flatulence, a creeping sensation in the flesh, numbness, torpidity of the liver, mental depression weakness of the will, indisposition to move, fantastic fancies, exertion, bad or sleep and terrifying dreams, inability to remain in one place or position, weakness of the digestive organs, nervous incompetence, melancholy, melancholia, flatulence, sinking at the stomach, fitful irregularities, a chronic tendency to wakefulness, constipation and a complaint growing out of a feeling of indigestion of the system, and all batchness that does not proceed from organic causes beyond a reach of medicine.

Whenever the organs to be acted upon are free from mortal malady or structural diseases it is asserted that

MORSE'S INVIGORATING ELIXER

Will restore weakness with strength, increasing with effective, irregularity with uniform and natural activity and that not only without the hazard of hastiness, but with a lasting effect on the general organization. Bear in mind that all medicines, wherever they begin their work in the human system, and that the particular mode of the mode of motion and action begin in physical *death*. Bear in mind also, that for every kind of nervous disease the Great Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the surprised and almost miraculous change who hit occasion. Not the diseased, debilitated and shattered nervous system, which has been shown by experience, to be so in so simple and by sickness the unstrung and relaxed drainings to a state which bitterly reviving and built up. The mental and physical symptoms of nervous disease vanish together under its influence. And to the effect permanently, on the contrary, the relief is permanent, for the capital properties of the invigorate reach the remotest portion, and restore it to its normal condition.

LOSS OF MEMORY,

Confusion, giddiness, rush of blood to the head, melancholy, mental debility, hypochondria, wretchedness, fear of self destruction, fear of insanity, hypochondriac, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, dread of the prognosticating actions, hysteria, mesmerism, a vague sense of impending danger, impotency, constipation, etc. etc. from whatever causes arising it is, if there is any reliance to be placed on human testimony, absolutely infallible

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants consequently—all promising to be specific in the various diseases and complaints to which the delicate formation of woman render her liable. The result has generally been very little. These nostrums have indeed impart a momentary activity to
